EXPERIENCE

NIWC Pacific and COSMOS

Redbear partnered with NIWC Pacific to support the COSMOS Cloud Service Center through a series of awarded contracts focused on strategic communications, marketing, and stakeholder engagement.

Our team delivered a full suite of creative and digital services—including campaign strategy, stakeholder interviews, video production, UX design, technical writing, and social media content—all aligned with Navy branding and DoD requirements. Working seamlessly with government SMEs and engineers, Redbear helped shape the COSMOS narrative and amplify its visibility across internal and external audiences.

The success of this collaboration led to multiple contract renewals and established Redbear as a trusted creative partner within the federal innovation space.

EXPERIENCE

U.S. Missile Defense Agency

For the 36th Multinational Conference in Tokyo, Intrepid and the Missile Defense Agency enlisted Redbear to help craft the creative concept and cinematic direction for their opening film, a pivotal piece seen by global defense leaders and allies.

Drawing on its extensive production experience and Hollywood pedigree, Redbear collaborated closely with MDA's strategic communications and international affairs teams to elevate the visual storytelling beyond traditional government productions.

The result was a visually driven, emotionally resonant concept designed to inspire unity among partner nations while reflecting the precision, innovation, and humanity behind modern missile defense.

U.S. Department of Interior, Bureau of Land Management

Redbear successfully executed a comprehensive media placement campaign for the Bureau of Land Management (BLM) in Arizona, focused on promoting responsible shooting sports and public land stewardship.

Working with several local stations to find spots with high-value audiences during peak showtimes, our team developed an optimized broadcast schedule, managed all technical integrations, and provided real-time monitoring to ensure flawless delivery throughout the campaign.

Despite complex purchasing and coordination challenges, Redbear resolved procurement issues swiftly, kept the project precisely on budget, and exceeded performance expectations by overdelivering on the original specifications.
